This package provides clients with a broad examination of the contribution and likely activism of their membership. The custom reports make it easier for clients to find the information they need and put the data to work building their membership and PAC quickly.

Name and Address Match

\$1,500

Data Only - Contributor History and Voting History

This package matches individuals in client membership list to campaign contributions and voting history list based on an individual name and address. Additionally, the client will receive only raw data files as finished product. No secondary report creation or analysis is included with this package.

Business Address Match

\$1,500

Contributor History and Voting History

Matches client membership lists to campaign contributions on secondary piece of information most commonly employer or company. This level of matching is helpful for associations that have companies rather than individuals as members.

Home Address Append

\$1,500

Many associations don't have home addresses for their individual members. This service, wherever possible, identifies and appends home address in for an individual person.
